# Choice Perennials

Our perennials are all locally grown. A trial will convince you that it pays to plant perennials propagated in our own "Puget Sound" area, where conditions are more nearly ideal for growing practically all types of ornamental plants—ask your favorite garden authority. Prices listed here are for strong field-grown plants of medium size unless otherwise specified. Prices on smaller or larger clumps on request. Varieties marked with star (★) denote those adaptable for rockeries.

We invite inquiries regarding stock not listed in this catalog. We may grow it in quantities too small to list, or, we may be able to secure it for you at a reasonable cost.

All orders, accompanied by cash remittance will be reserved for spring delivery at proper planting time, weather conditions making it impractical to transplant some types at this time of the year.

**GUARANTEE**—All stock shipped by us is guaranteed to be true to name, healthy and in good growing condition, upon arrival at destination. Stock not meeting these conditions will be replaced if returned to us within three weeks after arrival. Since we cannot control conditions under which stock, once sold, is planted and grown, our responsibility is limited to replacement, or refunding of purchase price of merchandise returned.

**TERMS**—Cash is required with order. Please, no COD's. Considering prices in this list we cannot assume transportation charges. All prices F.O.B. our nursery. We will, however, ship by the most practical and inexpensive method. We would rather not accept orders for less than \$3.00. Remittance should include Washington State 3% Sales Tax. Existing market conditions subject our prices to change without notice. We welcome inquiries from commercial growers and dealers to whom special quotations will be given.

We are also extensive growers of Dahlias and Gladiolus—catalog upon request.

Our Nurseries are located in the heart of the productive Kent Valley. Follow the West Valley Highway, also known as Old Tacoma Highway, through Renton Junction and Orilla to O'Brien Corner, turn west  $\frac{3}{4}$  mile then south one mile, on east side of Green River.
